Our Journey

PingXingYun was established.

The **First Cloud XR Product** was launched, garnering industry recognition.

LarkXR 3.0 was launched, enabling XR enterprises and developers to build XR applications on the cloud

LarkXR became the most popular **Cloud XR Solution** by integrating industry expertise and empowering partners with secondary development capabilities.

Paraverse Technology Ltd was established in Hong Kong as Asia Hub for Global Expansion

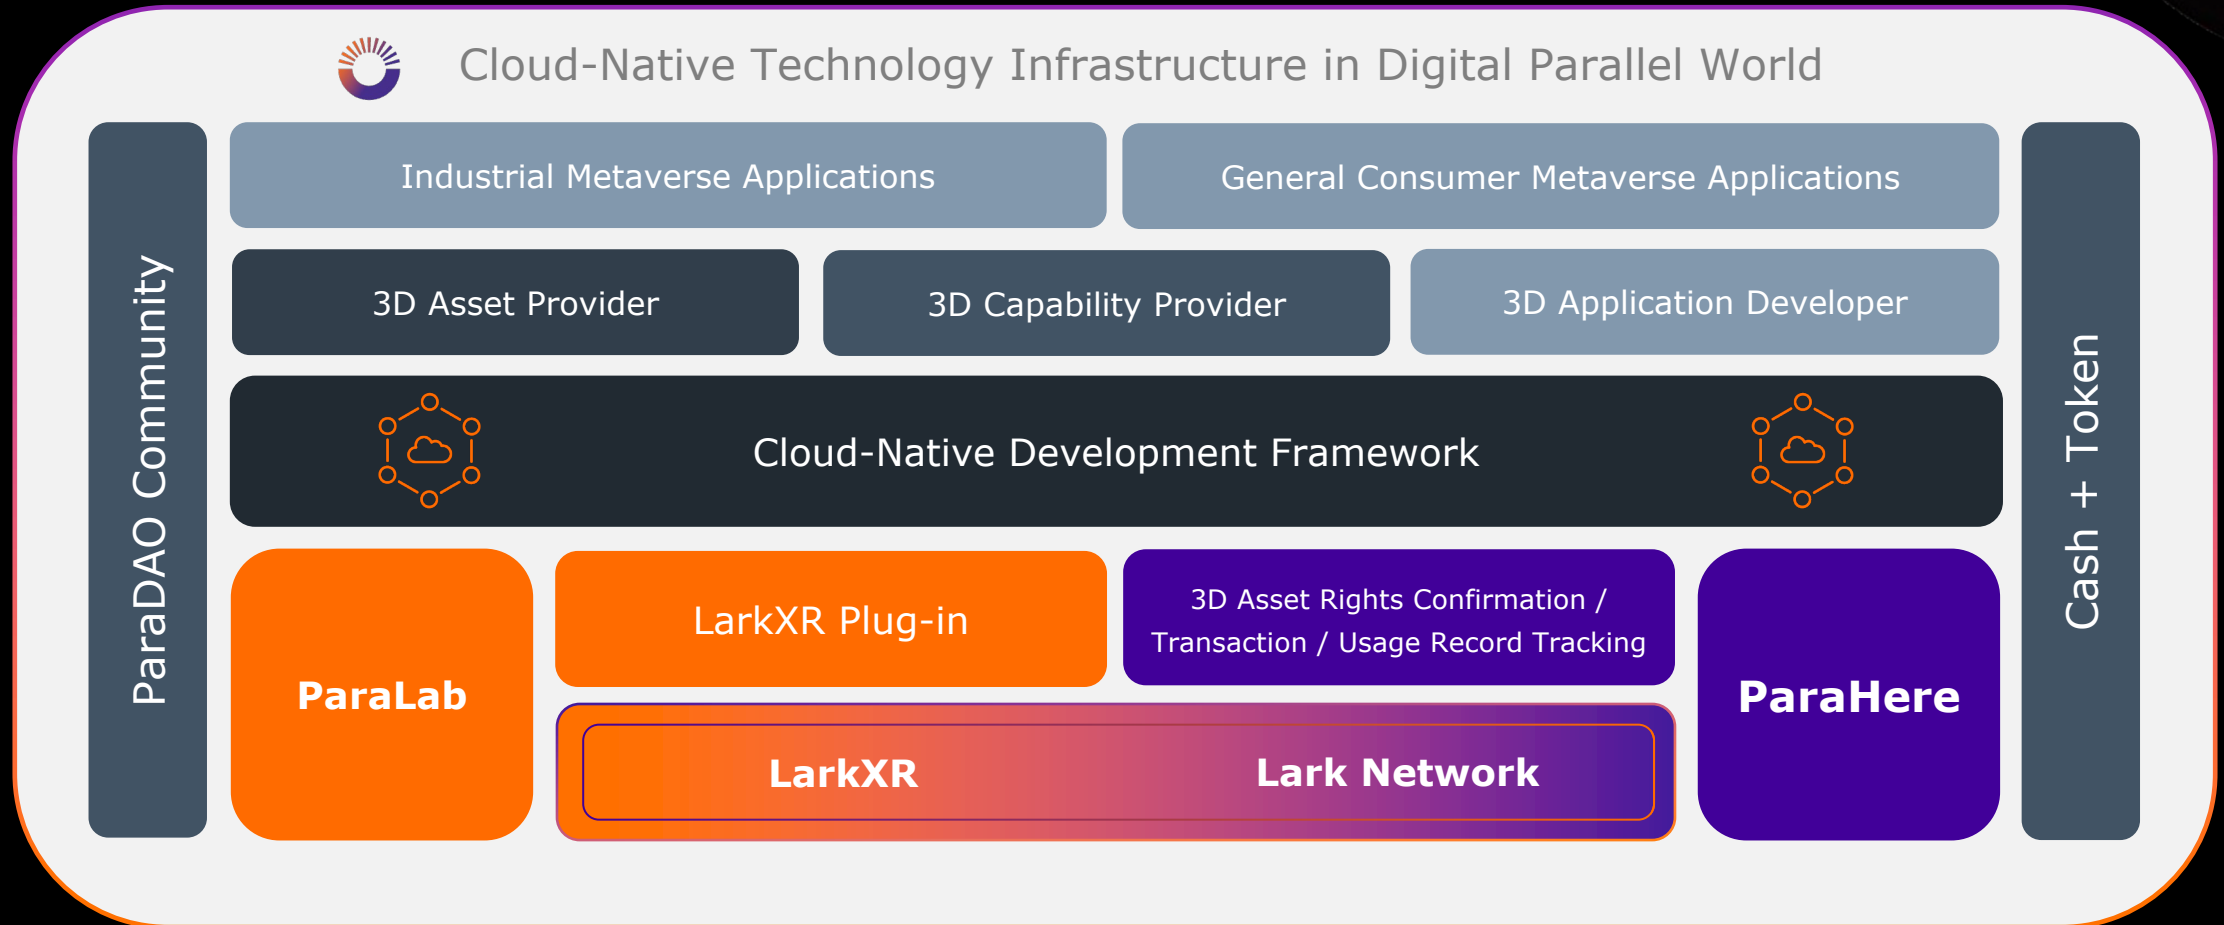

Brand Refresh from PingXingYun to Paraverse

Launched the first blockchain-based decentralized rendering network globally.

The China MOOC Conference 2019

The Ministry of Education of the People's Republic of China

教育部司局函件

感谢信

平行云科技（北京）有限公司：
为贯彻落实全国教育大会精神，落实新时代全国高等学校本科教育工作会议要求，展示中国慕课的建设与应用成果，在我司的倡导下，贵单位提供支持的“中国慕课大会”得到了与会领导和参会代表的高度评价，在社会上引起了强烈的反响，取得了圆满成功。在此，感谢贵单位的大力支持，并谨向贵单位参与本次大会工作的全体人员致以诚挚的谢意！
让我们携手共进、面向未来，共同致力于建设中国慕课的公平之路、共享之路、服务之路、创新之路、合作之路，深入推进教育革命、教学内容、教育教学模式与方法的深刻变革，发展更加公平更有质量的教育。

Education & Training | Higher Education

Virtual Simulation Experimental Teaching Platform 365 VR Teaching Cloud Classroom

The image displays the interface of the 365 VR Teaching Cloud Classroom. The main header features the text "科明365VR教学云平台" (Keming 365 VR Teaching Cloud Platform) and "VR 教学软件" (VR Teaching Software). The navigation menu includes "全部课程" (All Courses), "首页" (Home), "实验平台简介" (Introduction to the Experimental Platform), "实验成绩" (Experimental Results), "实验报告" (Experimental Reports), and "统计管理" (Statistical Management). The left sidebar lists various course categories such as "画法几何和机械制图" (Descriptive Geometry and Mechanical Drawing), "机械原理" (Mechanical Principles), "测试技术" (Testing Technology), "互换性与技术测量" (Interchangeability and Technical Measurement), "数控技术" (CNC Technology), "液压与气压传动" (Hydraulic and Pneumatic Transmission), "控制工程基础" (Fundamentals of Control Engineering), "机械设计" (Mechanical Design), and "大型机电产品与生产线自动线虚拟浏览" (Virtual Browsing of Large Electromechanical Products and Production Lines).

The main content area shows a 3D model of a mechanical part, likely a valve or pump component, with a detailed view of its internal structure. Below the main content, there are several smaller images and text blocks, including "面向机械结构创新设计的工程..." (Engineering for Innovation Design of Mechanical Structures...) and "点线面投影虚拟仿真实验" (Virtual Simulation Experiment of Point, Line, and Plane Projection). The bottom right corner features the logo of "科明365" and the slogan "科技创新教育 明智启迪未来" (Innovation in Education, Wisdom Inspires the Future).

On the right side of the image, there is a photograph of a person using a VR headset and a tablet to interact with the virtual environment. Below this, a larger image shows a person standing in a virtual classroom, interacting with a large curved screen displaying a 3D model of a mechanical system.

Education & Training | Vocational Education

All-in-One Desktop Virtual Reality Teaching Platform

- ✓ Developed Engineered Cloud Platform and Tools Suitable for Mechanical Engineering, Electrical Engineering, Automotive, Rail Transportation, and Other Professional Curriculum Resources
- ✓ Met the Needs of Vocational Colleges, Universities, and Applied Undergraduate Colleges
- ✓ Empowered Teachers for Systematic Virtual Simulation & Interactive 3D/XR Teaching Resource Development

KMAX 科骏

Education & Training | 5G+Cloud Smart Campus

Established 5G Scale Networking Construction and Application Demonstration Project 5G + Cloud VR Classroom Solution In Education

- ✓ Integrated Central Nodes and Edge Computing Cloud
- ✓ Developed AR Immersive & Interactive Teaching Solution
- ✓ Created XR Realtime Interactive Teaching Scenarios for Smart Campuses In the 5G Era

Digital Twin in Smart Manufacturing

3D Model Based Digital Twin PaaS System

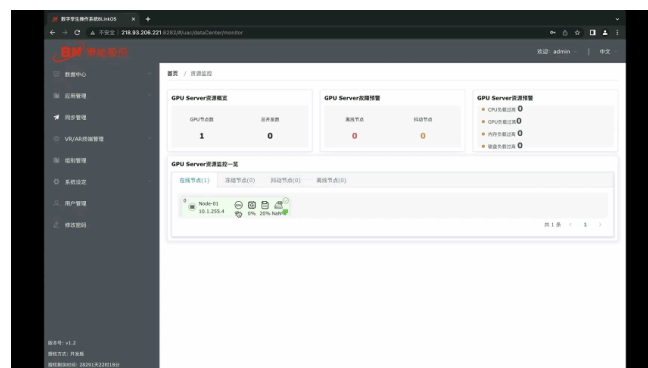

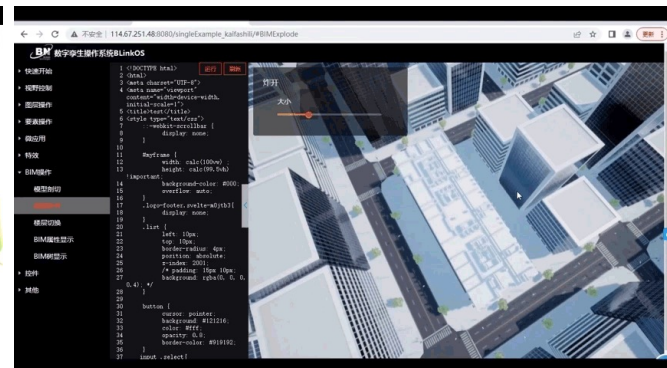

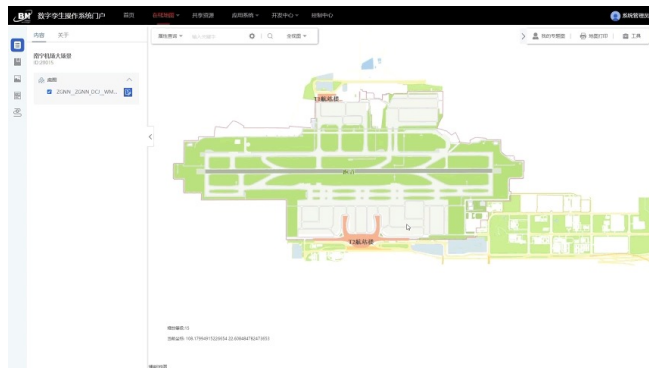

- ✓ Developed a **Smart Factory Platform** applicable to the chemical, power, and steel industries
- ✓ Equipped with flexible multi-dimensional visualization components, comprehensive Digital Twin building tools, rich data and communication interfaces, and an open system architecture.

Digital Twin in Infrastructure & Cities

Digital Twin Technology and Operating System

Aerospace and Aviation Transportation | Water Utilities | Energy Grid | Intelligent Cities

Digital Twin in Smart City and Urban Design

OurBIM BIM Cloud Engine Platform

Digital Twin in Manufacturing

Industrial Manufacturing XR PaaS Platform

- ✓ Transitioned design collaboration to the cloud
- ✓ Improved platform usability and integrated online and offline operations
- ✓ Streamlined sales & service processes and created impactful minimalist marketing model

3D Medical Visualization | Healthcare

"True 3D, Interactive, Highly Immersive" Cloud-based Virtual Simulation

- ✓ Aligned with IoT digitization and cloudification trends in the medical and healthcare industry.
- ✓ Enabled Rapid deployment, large-scale cloud resources, and enhanced user experience.
- ✓ Ensured high compatibility with mainstream XR engines and provided flexible support for various interaction and immersion modes.
- ✓ Enabled smooth operation, usage, and dissemination of medical applications across various devices.

Exhibition Display | 3D Virtual Space Design

Cross Platform SaaS - Real Estate / Exhibition Hall / 3D Marketing Scenes

- ✓ Real-time cloud rendering of high-fidelity 3D scenes
- ✓ Lightweight, visual, and interactive virtualization of marketing scenes.
- ✓ Enabled Liberation of end-user devices through B/S architecture usage scenarios across large screens, computers, phones, and tablets, promoting lightweight, on-demand, and collaborative interactions.

Metaverse in eCommerce & Marketing

Tmall x NetEase Cloud Music Metaverse "Cloud Party" Taobao Double 11 Virtual Shopping Carnival eCommerce

- ✓ Unlocked virtual scenes and theme playlist with avatars, interactive games within virtual space
- ✓ Offer an immersive 3D real-time interactive experience
- ✓ Over 360,000 participants joined the week-long event

Digital Entertainment x Consumer Marketing

"2060 Vowelland" Alimama's Metaverse Music Feast

"Mantavos" New-Gen Consumer Experience

- ✓ Hyper-realistic digital idols at AR live stage
- ✓ Unprecedented shopping & interactive experience
- ✓ Over 10,000 participants engaged in the immersive metaverse music concert

Pan-Entertainment Virtual Space

Metaverse Gala Event

Retaland x Samsung, The First Metaverse China New Year's Eve Gala

- ✓ Attracted nearly 10 million viewers and peaking at 3000 simultaneous online participants, with over 200,000 interactive engagements.

Metaverse Event: Interactive Gaming Experience

Multi-User Interactive Products and Metaverse Gaming Experience

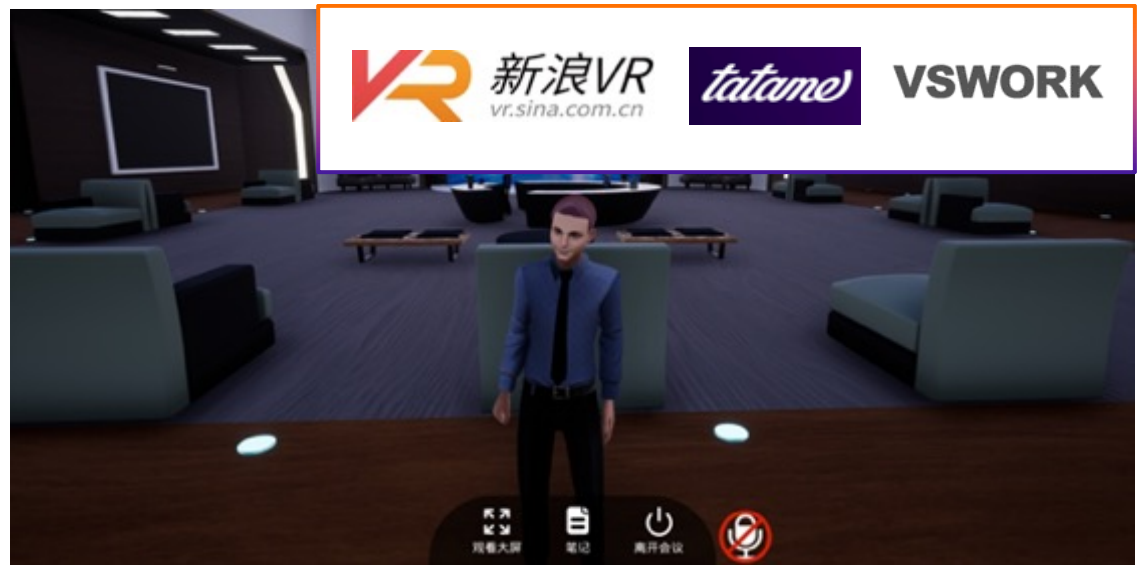

The 19th Asian Games Hangzhou 2023

Metaverse Summits / Forums

Lightweight Cross-Platform For Metaverse Summits / Forums

- ✓ High-immersion, real-time interactive XR experiences to overcome time and space constraints, uniting users in the Metaverse and fostering interconnectedness.
- ✓ Comprehensive screen coverage across communication channels, seamlessly connecting participants to the Metaverse and transforming online participation into an "on-site" experience.
